

## MV NETWORK UPDATE MAY 2014

NZI is the exclusive New Zealand agent & distributor of GIG glass insulators.

The Global Insulator Group (GIG) is a global leader in glass, with significant plants in Ukraine & Russia.

Based in Kiev, Ukraine, GIG is an example of a former state-owned Russian business now manufacturing for all parts of the world.

GIG and NZI have a strong business partnership and in turn NZI have an exclusive agency agreement to distribute GIG products in New Zealand.

Check out the GIG website [www.gig-group.com](http://www.gig-group.com), also the GIG pages from the NZI catalogue can be downloaded from the NZI website [www.nzinsulators.co.nz](http://www.nzinsulators.co.nz)

GIG has impeccable standards in glass & metalwork manufacture and GIG is certainly a brand consistent with NZI's own product positioning.

Distribution and Transmission are GIG's primary market and of course New Zealand Insulators holds a range of GIG glass disc insulators in both Kumeu & Temuka.

Contact us now to discuss these products, receive samples, and/or request a quote on these GIG items or any other NZI product.
