

# NZI REINTRODUCES PAYER PREFORMS TO NZ

## October 2012

Payer Industries Inc, from Canada's Quebec Province, manufacture an extensive range of Aluminium & Galv Steel Deadends, Armour Rods, Guy Grips & Guy Locks.

Owned & operated by Rene Payer, Payer is a second-generation family enterprise with a reputation for preforms of impeccable quality.

Between 2001 - 2010 Payer preforms were distributed under a house brand to most New Zealand Networks. An industry acquisition and subsequent brand change meant Payer preforms were no longer available.

NZI have secured the exclusive NZ agency for Payer preforms, re-introducing this credible brand and we're getting starting in late October 2012.

This interim launch brochure details the Payer preform range which NZI has on offer.

We are now in discussions with Asset Managers, those who know & trust Payer preforms – and are interested in specifying them for their Network.

Payer brand uses the coding system well known in NZ. For example an Aluminium Deadend for conductor diameter range of 13.85-14.44mm (Dog/Weke/Iodine) is called a Payer ADE 1385. Others have tried to develop their own brand-specific code names, but Payer preforms use the generic industry standard.

Payer apply painted colours to identify preforms, being those colours used in New Zealand for many years. In our example, Payer's Dog/Weke/Iodine Deadend (ADE 1385) is Blue, like it always has been.

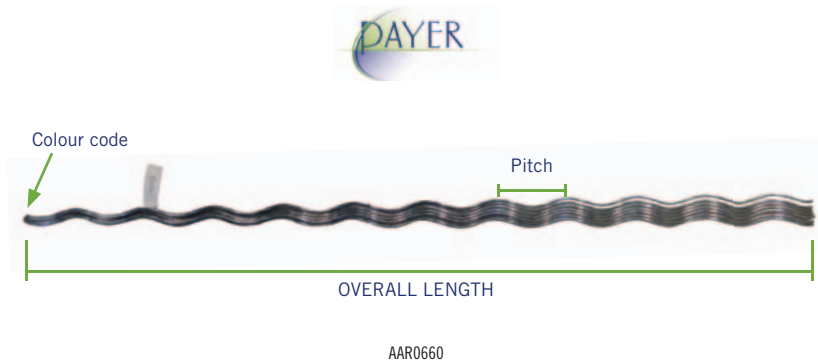

And finally (this bit is new), Payer preforms are now tagged with a waterproof label which sets out the name of the product, code, colour, conductor diameter range and the NZI Part Number.

Data sheets for each of the 44 Payer preforms can be downloaded from the Payer section of [nzinsulators.co.nz](http://nzinsulators.co.nz)

Proven performance, widely approved – Payer preforms are back.

At NZI.

**ALUMINIUM ARMOUR RODS FROM PAYER OF CANADA**

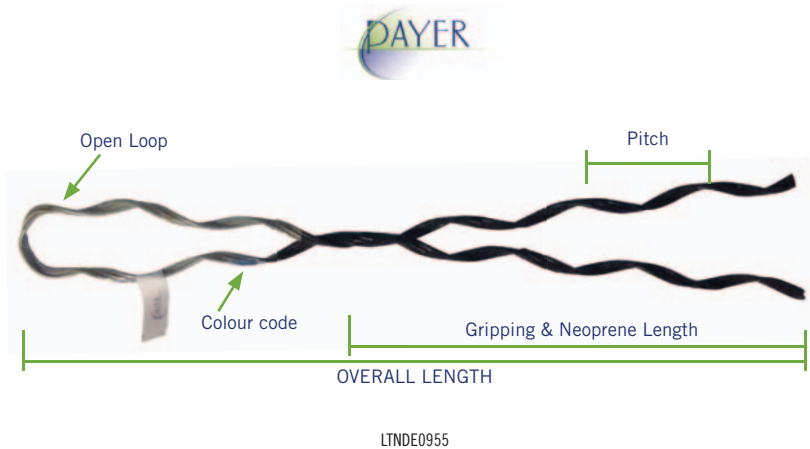

Part Number	Description	Brand	Origin	Conductor	Colour	Diameter Range	Box Qty	Unit
<b>Armour Rods</b>								
560006	AAR 0620 Armour Rod	Payer	Canada	Squirrel/Namu/Boron	Orange	6.2-6.59mm	40	Each
