

FOCUS ON FUSES & FUSEHOLDERS

NZI manufactures and stocks a variety of fuses and fuseholders to meet your needs from 32A through to 400A. Fuseholders can be supplied in all combinations of mounting and wiring options. All fuses are manufactured to AS/NZS 60269, IEC 60269, BS88.

Imported Economy Style 32A Fuseholder

- Available in end entry or back entry
- Staggered tag fuselinks
- Combination Din and surface mount
- 550V 32A.

Bussmann SAFEloc Range 32A Fuseholder

- A positive, stress free fuse fitting that is locked in position to ensure safe insertion and withdrawal from the base
- Base contacts are fully shrouded to help protect against electric shock
- Shrouds utilise simple slide/snap action allowing access to the contact terminal screws
- Front wired/back wired/back stud combinations
- Staggered tag fuselinks.

Bussmann Red Spot 63A Fuseholder

- Front wired/back stud combinations
- Offset tag fuses
- CSA certified
- For electrical systems and equipment up to 400A and 690Vac/dc
- Large, proven contact system and anti-vibration feature helps ensure perfect carrier contact alignment and superior electrical contact
- Conductor insulating sleeves help prevent inadvertent contact at the entry point while fully shrouded terminals deliver IP20 protection
- Molded parts made from flame-retardant, non-hygroscopic, high dielectric strength phenolic material.

NZI – Temuka Manufactured 63A K07 and 100A L14 Fuseholder

- Perimeter of carrier flush with base.
- External provision for using test probes.
- Positive carrier action.
- Plated one piece carrier clips and backup spring clips designed to give maximum contact pressure.
- Extruded base terminals electro plated.
- Adequate size cable entry for metric conductors.
- Large terminal screws for positive clamping of conductors.
- Grooves in base providing for sealing wires.

Expulsion Drop Out Fuselinks

- When you use New Zealand Insulators' Bussmann expulsion fuselinks you'll always have the correct fuse no matter the size or type.
- Fuselinks are packaged in easy-to-identify colour-coded packs to make sure the right amperage is selected every time.
- The fuselink assembly covers 15 different sizes and is standard for all rated amperages from 2A to 100A.
- Available in T or K speed ratings.

Bussmann Fuselinks

- NZI represents the Bussmann range of fuses. Our relationship with Bussmann goes back many years, and today the NZI & Bussmann brands are intrinsically linked.
- We stock a vast array of Bussman HRC fuselinks – BS88 Industrial, Motor Circuit, DIN Blade, Solid Links, 10x38 Cylindrical, KR85 House Service, High Speed T-Type, J-Type, Bottle and a wide range 12kV MV fuses.
- If you need a fuselink NZI will have it in stock, if not we can find and source it for you.

Customised Fused LV Panels

- Customised LV panels to suit your specific requirements. Simply hang or screw into place, and terminate on to it.
- We can make up any sizes and combinations utilising 3mm thick PVC Panels, or 6mm Formica.

New Zealand Insulators proudly made in Temuka, South Canterbury, New Zealand.
