

## WHAT HAPPENS AFTER THE STORM HAS PASSED?

As the recent storms in Auckland and across the country have shown, weather events are becoming more severe and unpredictable. This results in added pressure on our infrastructure systems, in particular our overhead power grid.

When these events occur NZI, just like our customers, responds quickly and we are on hand to provide support and ensure materials are delivered to the required locations as soon as possible. If this means delivering in private cars or on a pushbike, in the middle of the night or on the weekend, our dedicated staff will be there with your insulators and line materials.

As a New Zealand owned and operated company that holds millions of dollars worth of stock in our North and South Island warehouses, we can respond to our customers' needs in real time.

We have been providing this customer service for over 95 years, and will continue to do so for another 95 and beyond.

NZI's products hold a 25 year warranty and our commitment to service forms part of this warranty.

## EEA CONFERENCE

20-22 June 2018

Our team are anticipating an exceptional 2018 EEA Conference in Auckland.

As well as our dependable range of quality insulators we will also be releasing a whole new range of products for the first time during the show.

We have partnered with world leading International companies to bring to New Zealand innovative solutions to existing problems within our industry.

Come and see us on stand 82, as we reveal these exciting new products.

New Zealand Insulators proudly made in Temuka, South Canterbury, New Zealand.

Contact us now for information on our products, to receive samples, and/or request a quote on any of our NZI or agency products.
