CATALOGUE

NEW ZEALAND INSULATORS

TEMUKA

100 Years
1924 - 2024

Proudly Supporting
the New Zealand
Electrical Industry

Introduction

This 2025 updated catalogue showcases part of the current range of products that New Zealand Insulators is offering ex-stock, in 2025.

We have retained the change in format that we developed last year as it makes the catalogue a bit more user friendly and easy to navigate and continue with the key attributes of the A5 size and wire binding (always popular with our customers).

The 2025 catalogue cover continues the theme of 100+ years as a New Zealand manufacturer. This is an achievement worth acknowledging as we start our 101st year as a very important part of the New Zealand Electrical Industry, so well worth celebrating in 2025.

Our new 2025 Catalogue presents our ever-popular NZI products all manufactured in Temuka, South Canterbury, New Zealand. Plus, an overview of the NZI Agency ranges from Eaton, Bussmann, DTR, Poinsa, Polesaver, CTC, Avon, Fulton Industries, Payer, NGK-Stanger, Long & Crawford (Long Controls) and Narada. Plus, many useful reference pages, fuse compatibility charts, ANSI Insulator Designations and Dimensions and a copy of our current Telarc ISO 9001:2015 Registration.

New Zealand Insulators remains focused on the NZI brand with a determination to retain our capability as a local NZ manufacturer, we thank you for giving NZI the opportunity to expand our role as a supplier.

Printed copies of this catalogue are freely available through NZI or via our website and it is also available as a PDF file both in its entirety and by brand, online at www.nzinsulators.co.nz. PDF drawings for many of the products can also be downloaded from the NZI website.

Our focus is to continue building on our 101-year history of supporting customers and the NZ electrical industry by sustainably manufacturing quality porcelain and electrical fittings complimented with reputable agencies, whilst providing outstanding service and innovation.

Thank you all for supporting New Zealand Insulators.

This 2025 catalogue represents over one hundred years of manufacturing excellence. It is underpinned by New Zealand Insulators' 101-year history of proudly supporting the New Zealand electrical industry.

New Zealand Insulators came into being on the 20th February 1924, when the National Electric and Engineering company (NEECO) purchased Dominion Porcelain and Tile Co and renamed it New Zealand Insulators.

In 1868 Joseph Whitehead established a brick works in Temuka, employing William Hoare who in 1894 on the land at the South end of the present factory site started his own brickworks. His son William was employed by the various owners of what had been his father's company and then continued with NZI for all his working life – William was the first of many employees who have spent their entire working lives with NZI.

Clay quarrying started in Kakahu in 1903 and continues today from our NZI owned and operated site providing raw materials and a source of main ingredients for today's NZI Insulators.

Over the years NZI has experienced floods, fires, world wars, the highs and lows of global and domestic

business and unfortunately, 2007 saw the closure of the Ashburton low voltage plant. Staff levels have fluctuated across our 101 years; 3 in 1931, 129 in 1958, 400 in 1986, down to about 18 in 2005. Today we are proud to say that we have returned to more than 80 full-time staff.

NZI is of course also well known for Temuka Pottery and we continued to have production and manufacture of pottery ebbing and flowing from 1924 to a boom period in the 1970s-1980s. In 2014 NZI relinquished pottery manufacture to focus on our main business of insulator manufacture. Being the last manufacturer of porcelain insulators in this part of the world the challenge was accepted to modernise, invigorate and create a business capable of growing for another 100 plus years.

We are in a position to do this, due to the many staff, families, customers and suppliers who have helped NZI become what it is today, together with the leadership, support and direction from the current New Zealand owners/directors.

Thank you to all those staff and managers who have gone before us creating an opportunity for NZI to excel under the direction of these NZI General Managers:

Energy Storage Solutions

Narada

Containerised Battery Energy Storage System (BESS)

- **Modular Scalable Design**
EnerCube is designed with three modular container sizes (10ft - 250kWh, 20ft - 500kWh, 40ft - 1000kWh) for easy saleability for “On or Off” grid applications.
- **Plug n Play**
Highly integrated battery system enables easy transport and installation.
- **Customisation**
Flexible system configuration to suit most applications.
- **One-Stop Turnkey Solution**
EnerCube has integrated all components including hardware and software to provide a one-stop turnkey solution.
- **Lead Carbon and Lithium Battery Options**

Contact our office to discuss your specific system requirements and we can design a solution to meet your customised energy requirements.

CTC 11kV Polymer Line Post Insulators – Tie Top & Clamp Top	16	DTR 12-33kV Polymer Surge Arresters – Class 1	56
CTC 11kV Toughened Glass Discs For Distribution	17	DTR 12-33kV Polymer Surge Arresters – Class 2	57
2.0 - 22-25kV Insulators		7.0 - Overhead Line Hardware & Low Voltage Insulators	
NZI 22kV Porcelain Line Post Insulators – Tie Top	20	NZI Porcelain Guy Strains	60
NZI 22kV Porcelain Line Post Insulator – Clamp Top	21	AX Galvanised Steel Spindles & Washer for Pin-Type Insulators	61
NZI 22kV Porcelain Pin-Type Insulator – Tie Top	22	AX Galvanised Steel Spindles for Pin-Type Insulators	62
DTR 25kV Polymer Line Post Insulators – Tie Top & Clamp Top	23	AX Clevis Thimbles	63
Clamp, Stud and Base Options for DTR 25kV Polymer Line Post Insulators – Tie Top & Clamp Top	24	AX Shackle Straps & U Shackles	64
DTR 25kV Polymer Strain Insulator (IEC 61109)	25	Avon Industries Shackle Straps & U Shackles	65
3.0 - 33-35kV Insulators		Avon Industries Galvanised Steel Crucifix Bracket & Crossarm Braces	66
NZI 33kV Porcelain Line Post Insulators – Tie Top	28	Avon Industries Galvanised Steel Eye Bolts & Screw Anchors	67
NZI 33kV Porcelain Line Post Insulators – Clamp Top	29	CTC Low Voltage Porcelain Reels & Spike	68
Clamp and Stud Options for NZI 33kV Porcelain Line Post Insulators – Clamp Top	30	CTC Low Voltage Porcelain Reels – Pre-Assembled Bundles	69
NZI 33kV Porcelain Pin-Type Insulators – Tie Top	31	CTC Low Voltage Porcelain Pin-Type Insulator – Tie Top	70
DTR 35kV Polymer Line Post Insulators – Tie Top & Clamp Top	32	CTC Porcelain Guy Strains	71
Clamp, Stud and Base Options for DTR 35kV Polymer Line Post Insulators – Tie Top & Clamp Top	33	8.0 - Earth Rods, Earthing Hardware & Accessories	
DTR 35kV Polymer Strain Insulators	34	Fulton Industries 13mm Earth Rods & Accessories	74
CTC 33kV Polymer Line Post Insulators – Tie Top & Clamp Top	35	Fulton Industries 15mm & 19mm Earth Rods & Accessories	75
4.0 - 46-500kV Insulators		Fulton Industries Earthing Accessories	76
NZI 66kV Porcelain Line Post Insulators – Clamp Top	38	Fulton Industries Taps, Lugs, Service & CTC Bolted Connectors	77
NZI 110kV Porcelain Line Post Insulators – Clamp Top	39	Fulton Industries Tee-off & Rising Main Connectors	78
DTR 46kV Polymer Line Post Insulators – Tie Top & Clamp Top	40	Fulton Industries Split Bolt Connectors & Parallel Groove Clamps	79
DTR 69kV Polymer Line Post Insulators – Tie Top & Clamp Top	41	Fulton Industries One-Size-Fits-All Wedge Clamp	80
		Avon Industries HDG & Stainless Steel Earth Rods	81
