

NZI at Connexis Annual Connection 2025

NZI was proud to support and exhibit at the Connexis 2025 Annual Connection event in Christchurch this October. It was a fantastic opportunity to connect with the industry and showcase our commitment to sustainable manufacturing.

While NZI has long supported the electrical industry, we recognise that sustainability is everyone's responsibility. It's vital to know that your suppliers and supply chain are operating responsibly – and with over 100 years in business, you can count on NZI to lead by example.

Over the past two years, we've recycled more than **700 tonnes of old porcelain**, preventing it from entering restricted landfills. At our Temuka factory, every returned porcelain item is reused – crushed, remixed with other clay products, and transformed into **100% quality, sustainable NZI porcelain**.

The NZI team on duty

Preparing and installing a Wagner composite pole under the watchful eyes of the NZI exhibit stand.

All NZI porcelain is 100% recyclable in New Zealand.
