

NZI celebrates 100 years of New Zealand manufacturing and industry excellence.

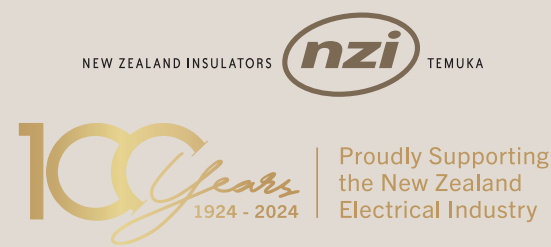

A weekend of special events was held to commemorate this extraordinary milestone and many of our employees, ex-employees, customers and suppliers joined us in Temuka to celebrate.

Factory Tours

Several groups were shown through the Temuka factory giving them an insight into the processes involved in manufacturing our insulators. For some of our past employees, this was a chance to see how things have changed since they worked with us.

Mix & Mingle Evening

Our "Bulk Store" is usually used for warehousing raw materials for production but the 100 Year Committee transformed it into a vibrant space for our guests to connect and reminisce. There were interesting displays of past and present insulators and Temuka Pottery along with a wonderful grazing table put together by Clever Catering.

Official Celebration Dinner

The festivities continued with a dinner for staff and invited guests from the NZ electrical industry and many supporters of NZI to officially mark the centenary. The event was thoroughly enjoyed by all who attended and we even had a cake resembling our NZI Temuka factory.
